

I am a listener and financial supporter of the Christian radio station known as K-LOVE. I understand that the FCC is currently considering giving priority to LPFM stations over current FM translator service stations like K-LOVE. I hope that the FCC does not go through with this proposal. K-LOVE has been a blessing to me and my 9 year old son, Ryan. K-LOVE is a positive influence on my family, in a world where we are daily bombarded with violence, filthy language, and sexually explicit content. K-LOVE is family friendly radio unlike most of the other stations in our area. K-LOVE donates air time to such causes as local rescue missions and Shohanna's Hope (an adoption aid service). We need K-LOVE. I NEVER have to worry about what my son will hear on K-LOVE. Our country needs K-LOVE. They have encouraged Americans to vote for months now...and not for any particular party...just encouraging people to register and exercise their right to vote for the person of their choice. The world needs K-LOVE. So many of our service men & women stay connected with hope and home through K-LOVE. Please...we need K-LOVE. Thank you. Debra L Hauser
